

Military Veterans Mental Health Services Cheshire and Merseyside

Greater Manchester West Mental Health NHS Foundation Trust (GMW) now provide mental health services for military veterans in Cheshire and Merseyside (excluding Liverpool). The service supports veterans by delivering specialist high quality care with a focus on improving psychological wellbeing, increasing social networks and supporting long term recovery.

Our highly skilled staff will work effectively and in a timely way with military veterans who are experiencing psychological related problems. We work in partnership with leading mental health charity for veterans, Combat Stress. Issues we can help with include; depression, anxiety, substance misuse, trauma, adjustment disorders and problems relating to personality.

The service provides care packages tailored to the individual with professional support offered to both the service user and their loved ones who may be affected by their difficulties.

Contact us

Military Veterans can be referred to our service via their GP, healthcare professional, third party organisation, family member or carer. Self-referrals can be made by contacting the service:

0151 908 0019
